

I currently represent Cloudfarms in Vietnam and support other countries in Southeast Asia. With experience working on pig farms in Denmark and Vietnam, I have a solid understanding of farm operations and herd management.

Ta Duy Lam
Sales Representative at Cloudfarms
Ho Chi Minh City

Specialties in the pig industry

Farm management, Data control, Report analysis

Projects I'm most proud of

- Rolled out farm management software for companies and individuals with herd sizes ranging from 500 to over 10,000 sows.
- Oversaw and managed operational processes, ensuring data transparency and clear reporting of results.
- Collaborated with numerous domestic and international enterprises to enhance farm operations and drive advancements.

Current focus

Maintaining strict data management to ensure accuracy, leveraging cutting-edge global management technologies, and creating a comprehensive system that offers insight into potential challenges.
